

DAMIETE KATERINA BRAIDE

Network Solutions Sales Engineer

ambraidekaterina@gmail.com · 09077317693 · Abuja, Nigeria

PROFESSIONAL SUMMARY

Results-driven Network Solutions Engineer with a proven track record designing and deploying enterprise WLAN, campus network, and cloud-managed infrastructure for high-profile clients across banking, government, and education sectors in Nigeria. Huawei-certified across six specializations from Datacom and Network Security to IP Networking and Presales with hands-on expertise in iMaster NCE, SD-WAN, and Wi-Fi 7 POC delivery.

PROFESSIONAL EXPERIENCE

Network Solutions Engineer | Huawei Technologies Co., Ltd.

July 2025 – Present

Nigeria Enterprise Network Solution Sales Dept.

- ▶ Architected and delivered WLAN solutions for 15 enterprise clients spanning banking, government, and education, including Sterling Bank, Alternative Bank, Federal Ministry of Agriculture (7 sites), Kano Airport, and Port Harcourt Airport.
- ▶ Engineered predictive WLAN simulation and heatmap analyses using Huawei WLAN Planner to design optimal coverage, capacity, and performance for greenfield and upgrade deployments.
- ▶ Deployed iMaster NCE-Campus on live networks at Nigerian Civil Aviation Authority and Mainstream Energy, configuring SSID, WPA3 authentication, AD synchronization, and 802.1X across wired and wireless infrastructure.
- ▶ Executed Wi-Fi 7 POC at Mainstream Energy, validating maximum-throughput performance benchmarks and demonstrating cloud-managed campus capabilities to C-level stakeholders.
- ▶ Delivered CloudCampus Solution presentations to National Population Commission and Mainstream Energy, articulating architecture, automated O&M, and ROI to both technical and executive audiences.
- ▶ Conducted end-to-end site surveys across multi-site environments (up to 7 locations per engagement), translating pain points into tiered technical proposals aligned to client budgets and constraints.
- ▶ Drove POC training programs on Cloud-Campus, SD-WAN, and CCTV networking, equipping the team with repeatable delivery frameworks for new product lines.

Tech Support Engineer | WELTEK Limited

Apr 2024 – Mar 2025

- ▶ Configured and maintained enterprise routing, switching, and firewall infrastructure, achieving measurable reductions in network downtime through proactive fault management and security policy enforcement.
- ▶ Designed customized networking solutions for diverse business clients by collaborating cross-functionally with sales and delivery teams to align technical architecture with operational requirements.
- ▶ Managed critical contract-bidding documentation and network topology records, ensuring compliance readiness across all client engagements.
- ▶ Diagnosed and resolved complex multi-layer network incidents, consistently restoring service within agreed SLA windows.

ICT Instructor — Huawei ICT Academy | University of Port Harcourt

2021 – 2025

- ▶ Launched and scaled a Huawei ICT certification program, mentoring 100+ students toward HCIA and HCIP credentials and building a pipeline of industry-ready network engineers.
- ▶ Developed hands-on lab curricula covering networking, cloud, and enterprise solutions aligned to Huawei global education standards.

IT Support | Viguo IT Solutions

2021 – 2022

- ▶ Delivered first and second-line IT support across hardware, software, and network layers, ensuring uninterrupted daily operations for a publication and media organization.

- Configured workstations, peripherals, and network devices, accelerating onboarding timelines for new staff.

TECHNICAL SKILLS

Networking & Infrastructure: TCP/IP · OSI Model · LAN/WAN · VLAN · Routing & Switching · WLAN Design · Network Security · Firewall Configuration · SD-WAN · Campus Networks.

Huawei Technologies: VRP Platform · iMaster NCE-Campus · eNSP · WLAN Planner · DemoCloud · Huawei Enterprise Switches, Routers & APs · Cloud-Campus · Wi-Fi 7 · EdrawMax · Enterprise Datacom Bookshelf.

Protocols & Standards: 802.11a/b/g/n/ac/ax (Wi-Fi 7) · WPA/WPA2/WPA3 · 802.1X · PPSK · RADIUS AAA · MAC Auth · Portal Auth · SSID · PoE · AD Synchronization.

Presales & Solutions: Site Surveys · WLAN Simulation & Heatmap Analysis · Technical Proposal Writing · Solution Presentations · Predictive Coverage Design · POC Planning & Delivery.

IT Operations: Network Troubleshooting · Technical Documentation · IT Support · Project Management.

KEY PROJECTS & CLIENT ENGAGEMENTS

Enterprise WLAN Design & Deployment | Huawei Technologies | 2025

- **Sterling Bank:** Full site survey + predictive WLAN simulation with heatmap analysis; delivered technical proposal optimizing wireless coverage and capacity.
- **Alternative Bank:** Greenfield wireless network design for a site with zero existing connectivity, architected end-to-end from site survey through heatmap-validated proposal.
- **Federal Ministry of Agriculture & Food Security (7 Sites):** Scaled WLAN survey and design across 7 nationwide locations; proposed iMaster NCE for centralized monitoring and maintenance.
- **Ministry of Foreign Affairs:** Executed site survey and produced a three-tier budget-aligned WLAN proposal with simulation results and coverage heatmaps.
- **Nigerian Civil Aviation Authority:** Deployed iMaster NCE-Campus on a live production network; onboarded devices and configured SSID, authentication, and AD synchronization.
- **Mainstream Energy (Wi-Fi 7 POC):** Installed iMaster NCE-Campus, onboarded live network devices, configured full WLAN stack, and successfully completed Wi-Fi 7 POC, validating next-generation throughput benchmarks.
- **National Population Commission:** Presented Huawei 10 Gbps CloudCampus Solution, covering architecture, cloud-managed operations, and automated O&M benefits to executive stakeholders.
- **University of Abuja (5 Departments):** Conducted multi-department site survey and developed comprehensive WLAN upgrade proposal with simulation and coverage analysis.
- **Glisten International Academy:** Designed WLAN topology for indoor and outdoor scenarios; delivered proposal covering routers, firewall, core switches, PoE access switches, and APs.
- **Kano Airport · Port Harcourt Airport · University of Ilorin · University of Katsina · Code of Conduct Tribunal:** Delivered simulation-based WLAN design proposals with predictive coverage insights for wireless network deployment.

POC & LAB COMPETENCIES

WLAN

- WLAN Basic Services: multi-radio modes, WEP/WPA/WPA2/WPA3 security, multi-SSID, direct/tunnel forwarding, STA access control.
- WLAN QoS: Client-based and SSID-based rate limiting, VIP preferential access, congestion management.
- WLAN Security: AP authentication via MAC/SN, AP whitelist/blacklist, PPSK, RADIUS AAA, MAC auth, 802.1X (machine + username, AD identity source), Portal auth via iMaster NCE.
- O&M: AC web management, Fat/Fit mode switching, FTP/AC-mode AP upgrades, SYSLOG.

Campus Network (iMaster NCE-Campus)

- Deployment: Controller installation, license upload, MSP/tenant account creation, site creation, device onboarding.

- ▶ Network Services: Wireless/wired 802.1X, guest portal auth, VIP bandwidth reservation, preferential access.
- ▶ Monitoring & O&M: Device information monitoring, log management, fault alarm, network digital maps.

CERTIFICATIONS and AWARDS

- ▶ Huawei Certified ICT Associate (HCIA) – Datacom.
- ▶ Huawei Certified ICT Professional (HCIP) – WLAN.
- ▶ Huawei Certified Academy Instructor.
- ▶ Huawei Certified Specialist Associate Presales – Network Security.
- ▶ Huawei Certified Specialist Associate Presales – SME Network.
- ▶ Huawei Certified Specialist Associate Presales – Storage.
- ▶ Huawei Certified Specialist Associate Presales – IP Network.
- ▶ Huawei Certified Specialist Professional Presales –Data Center Facility (Power).
- ▶ Huawei Certified Specialist Professional Presales – Data Center Facility (Cooling).
- ▶ Huawei Certified Specialist Professional Presales – Storage.
- ▶ Huawei Certified Specialist Professional Presales – SME Network.
- ▶ Huawei Seed for the Future (CC).
- ▶ Huawei Best Ambassador Award 2023–2024.

EDUCATION

Master of Business Administration (MBA)

2025 – Present

Miva Open University

BSc Computer Science

2018 – 2024

University of Port Harcourt

TECHNICAL PUBLICATIONS

- ▶ *Basic OSI & TCP/IP Overview*
- ▶ *Secure Web Authentication with a Serverless API: A Quick Guide*
- ▶ *CSS Grid vs Flexbox: Using Ajax for Dynamic Web Page Loading*
- ▶ *The Impact and Necessity of Dark Mode on User Experience*
- ▶ *Building Progressive Web Applications using Svelte Kit*
- ▶ *Dynamic Styling with JIT Mode | Variable Fonts for Dynamic Typography*

LEADERSHIP & AFFILIATIONS

- ▶ Vice President — Nigeria Association of Computing Students (NACOS), University of Port Harcourt
- ▶ Face of NACOS — University of Port Harcourt
- ▶ Treasurer — Bakana Student Association (BSA)
- ▶ Global Huawei ICT Competition — Represented institution at National and Regional stages
